A word from CEO, Emil Sunvisson

It is with great satisfaction that Cherry presents the results from the second quarter. All business areas report higher operating income compared to the same period last year and the strong growth, in the segment of Online Gaming, continues.

Online Gaming - Stable growth and strong profit

Cherry's focus on online slot machines has generated continued growth and profit. Operations are carried out in cooperation with strong and competent partners. The business focuses primarily on the Scandinavian market. Preparations are underway to address new European markets with EuroSlots.com, which is a prerequisite for continued profitable growth. Meanwhile, Cherry has with the product EuroLotto, focused on activating the large customer base that was built up during last year. This has also, during the first half of the year, resulted in decreased marketing costs.

Restaurant Casino - Very Strong start for 2012

During the first half of 2012, Restaurant Casino has delivered a very solid result and at the same time turnover rose by 7 percent. In July, the acquisition of Snättringe and City Casino's businesses were completed. The acquisition will have a positive impact on sales and earnings from the third quarter. Cherry thereby further consolidates its leading position within the area of restaurant casino.

Maritime Gaming - Turned profitable

In the second quarter, the maritime segment turned profitable and despite the challenging conditions in southern parts of Europe. Operations in the Baltic are developing well, while the activities around the British Islands and Mediterranean remains a challenge. It is pleasing that Cherry, in August, signed a new contract with Corsica Ferries, which will improve the profitability in the Mediterranean.

Business Segment

Cherry's operations are divided into three business segments and development projects

Online Gaming - Cherry operates Online Gaming through the sites SverigeAutomaten.com, NorgesAutomaten.com, DanmarksAutomaten.com, PlayCherry.com, EuroLotto.com and affiliate operations from CherryAffiliates.com, all operated by subsidiaries in Malta.

Restaurant Casino - traditional casino table games (blackjack, roulette) operated in approximately 220 Swedish restaurants, nightclubs and hotels. Cherry also offers Event Casino for companies and private individuals.

Maritime Gaming - operates games (slot machines and table games) on 66 vessels, of which 9 in the Mediterranean Sea and the Black Sea, 41 vessels in the Baltic Sea and 16 in the English Channel / North Sea and Irish Sea.

Development Projects - the various development projects within the Group are aimed at creating new services and products to support Cherry's business concept and strategy. Until the product/service has been launched and established, the costs are taken centrally in the Group and are reported for the segment as "Development Projects" to make it transparent how much is being generated by the Group's business segments.

Online Gaming - Second quarter/Six-month interim period

During the second quarter of 2012, revenues rose with 11 percent and amounted to MSEK 60.9 (55.0). EBIT increased with 156 percent and amounted to MSEK 8.7 (3.4).

For the six-month interim period revenues increased with 24 percent to MSEK 128.5 (103.8) and EBIT increased with 101 percent to MSEK 17.3 (8.6).

NorgesAutomaten, SverigeAutomaten and DanmarksAutomaten deliver stable results. Revenues from CherryAffiliate.com increased significantly during the first six months of the year. During the second quarter Cherry has focused on developing the large acquired EuroLotto customer base and marketing costs has been lowered compared to first six months, 2011. Cherry continues with a significant growth in customer intake and at the end of the quarter the number of new customers amounted to 25 758 (21 806) and number of registered customers within Online Gaming amounted to 271 919 (146 863). During the second quarter the deposits increased to MSEK 158.2 (155.0) and the number of active clients amounted to 34 626 (37 181) customers.

Important events during the second quarter and the six-month interim report:

- Cherry has through its subsidiaries applied for a license from LGA (Lotteries and Gaming Authority) on Malta and is preparing to launch EuroSlots.com during the third quarter of 2012. The decision means that Cherry will get full control of the product offering and also get a better financial leverage with a low variable cost, which over time will enhance the margin of the Online Gaming business. Cherry Malta will continue to work together with our strong and competent partners for our established brands. Cherry maintains its growth focus within Online Gaming with continued investments in new innovative products, which is the foundation for future value creation.
- Cherry Malta and its subsidiary Inprom Ltd has terminated the agreement with Betsson Ltd. for renegotiation. The agreement covers the sites NorgesAutomaten.com, SverigeAutomaten.com and DanmarksAutomaten.com.

Restaurant Casino - Second quarter/Six-month interim period

In the second quarter 2012, revenues increased with 4 percent and amounted to MSEK 30.6 (29.4). EBIT increased with 63 percent and amounted to MSEK 2.6 (1.6). The increase in revenue and EBIT improvement can mainly be explained by the fact that Cherry has been taking gaming locations from its competitors. Cherry has also invested in credit card machines at all of the gaming locations, which has resulted in increased turnover.

For the six-month interim period revenues increased with 7 percent and amounted to MSEK 62.5 (58.4). EBIT increased with 62 percent and amounted to MSEK 5.5 (3.4).

Important events during the six-month interim report:

- Cherry overtook the casino operation from City Casino AB and Snättringe Restaurang AB which comprises 16 locations. The agreement is based on a revenue sharing over a limited time period. Cherry estimate that the revenue will increase with MSEK 8 on yearly basis related to the deal, and that there will be a positive impact on the result, starting from the takeover. The locations are based around Stockholm area and the most known gaming locations that are included are, Collage, Vasakoppen Café, O'Learys Södertälje and Soft Bar & Kök etc.
- Cherry's market share is 55 percent (53) of the active gaming tables according to the 2012 June statistics from the Swedish Lotteries and Gaming Authority. Cherry had at the end of the second quarter casinos at 222 gaming locations (224) with a total of 317 tables (317)
- Cherry has during the second quarter entered into nine new restaurant casino agreements in Sweden. Cherry closed 7 casino locations in Q2 due to poor profitability, bankruptcy and concept changes for the gaming location.
- Cherry has signed an agreement concerning Gröne Jägaren in Stockholm which is one of Stockholm most famous pubs. The operation started 1st of July.

Maritime Gaming - Second quarter/Six-month interim period

During the second quarter of 2012 revenues amounted to MSEK 24.0 (25.3) and EBIT improved and amounted to MSEK 0.3 (-0.1). During the second quarter, the outcome of a court decision, regarding a theft in Denmark, in 2008, has had an impact on revenues and profit by MSEK 0.7.

During the six-month interim period revenues amounted to MSEK 43.6 (44.9) and EBIT amounted to MSEK -0.2 (-1.3).

Some recovery of the revenues has been observed in Scandinavia, at the same time the situation is stabilized around the British Islands, while the Mediterranean continues to have a difficult situation. Since most of the

Maritime sales are in Euros and GBP, the stronger SEK has an immediate impact on the Group's revenues and result. The business unit continues to focus on acquiring new customers, improving efficiency, optimizing gaming environments and cost control to meet the current economic situation.

Cherry is a market leader in Europe within Maritime Gaming. In Scandinavia Cherry has about 40 percent (40) of the market, measured in number of ships that currently has on board gaming. In the Mediterranean, Cherry estimates that the market share is about 20 percent (18) and in the English Channel / North Sea / Irish Sea the market share is approximately 28 percent (25).

Important events during the second quarter and the six-month interim report:

- The court in Fredriksberg has ruled in favor of Cherry against Höst Retail regarding a theft at a gambling hall in Denmark, which took place in 2008, where equipment was destroyed and cash was stolen.
- Cherry has acquired all shares in Cherry Services Ltd (Cyprus) and in Briseis Development Corporation (Liberia)

Important events after the second quarter and the Six-month interim period:

- Cherry has signed a new agreement with Corsica Ferries to operate gaming onboard their ferries in the Mediterranean. The Ferries operate between Italy and Corsica. Cherry will start the operation gradually during 2012 and 2013. Cherry estimates that the agreement will give a positive contribution to Cherry's result as of Q4 2012 Cherry estimates the annual revenue from the operations will be approximately 250 KEuro

Development projects

Cherry focuses on finding profitable products/services that support the Group's business concept and long-term strategy. During the first six months 2012 revenues within the development projects amounted to MSEK 0.0 (0.0) and EBIT to MSEK -0.1 (-0.1).

Cash, financing and financial position

Staff and Organization

The average number of employees for the Group (calculated as fulltime positions) during the period was 205 (199). The total number of employees at the end of the period was 694 (684).

Risks and Uncertainties

For a description of the risks and uncertainties please see the 2011 Annual Report. During 2011 Cherry AB received a claim from The Norwegian Gaming and Foundation Authority, where they demand Cherry to cease with the marketing and offering of the game EuroLotto.com to Norwegian players. Cherry believes the Norwegian Gaming and Foundation Authority demands are incorrect as they target the parent company Cherry AB and not EuroSlots Ltd. Cherry has contested the demands of the Norwegian Gaming and Foundation Authority 5 of May, 2011. The Norwegian Gaming and Foundation Authority pursue the matter on the Euro lottery July 8, 2011, through to Lotterinemnda in Norway, (The Lottery Board). On October 28, 2011, The Norwegian Gaming and Foundation Authority announced that its injunction against Cherry stands firm. On January 9, 2012, the Kulturdepartementa announced that its injunction against Cherry stands firm. No fine has been set. Cherry is considering the appeal in the matter in a public court in Norway.

The Parent Company

The parent company provides and sells internal services to other group companies in the areas of finance, accounting, administration and management, and also has some external licensing revenues. Sales for the full year amounted to MSEK 1.0 (0.9) and profit after financial items amounted to MSEK -6.6 (-6.5). The parent company's investments in non-current assets amounted to KSEK 45 (418) for the reporting period. Cash and cash equivalents amounted to MSEK 11.8 (-12.1) at the closing date.

Outlook

The segment Online Gaming is expected to grow in line with the online gaming market. In September 2011, H2 Gambling Capital estimated that the European online gaming market would grow by 18.4 percent to 18.5 billion USD in 2012. Online gaming is exposed to intense competition and subject to a regulatory environment that may change rapidly in the different European countries. Cherry will launch several products/services that fall within the business development projects and that supports Cherry's business concept and long term strategy.

The legal situation for gaming on the Internet changes continuously by geographical markets. There is continued

pressure on countries within the EU to adapt their domestic legislation to applicable EU law, with free movement of goods and services. Several countries have announced that they work with new legislation that will be consistent with EU requirements.

The market for restaurant casino is shrinking every year. An increase in maximum allowed bets could generate growth and jobs. Cherry sees long-term positive trend in the business area Maritime gaming and growth can be achieved both organically and through acquisitions. The industry is cyclical and is affected at present by the current recession, especially in the south of Europe.

Cherry has not issued a forecast for the full year 2012.
